

Name of trainee: \_\_\_\_\_

Project: \_\_\_\_\_  
\_\_\_\_\_

I am willing and able to support this optimisation project.

I acknowledge this course is intended to act as a guide but that responsibility for safe and effective management of the optimisation work rests with the local MPE. Where clinical need conflicts with course timings or assignments then clinical need will take precedence.

I will ensure any errors or omissions in course content or improvement suggestions are fed back to the FLUG team
